

Ford & Harrison LLP Selects eBillingHub as Foundation to Simplify Electronic Billing Complexity and Growth

Firm chooses eBillingHub to improve cash flow, increased partner/shareholder distributions, and enhance client service.

Pittsburgh ([PRWeb](#)) April 3, 2008 -- eBillingHub®, the market leader in simplifying electronic billing for law firms, today announced Ford & Harrison has selected the eBillingHub to simplify its electronic billing environment. Reducing the complexity caused by the ever increasing volume of electronic billing is intended to allow the firm to achieve a predictable, dependable, and efficient e-billing process, benefiting both the firm and its clients. Ford & Harrison uses ADERANT as their primary business management system.

"We came to believe that in order to be successful with electronic billing, a firm needs to address more than the increased workload; it needs to be able to simplify and standardize the process." said Roy Davidson, Ford & Harrison's Controller. "We see this solution as addressing two components of our business. First, we have a scalable technology that allows us to completely move away from the costly and error prone manual process law firms must go through to get electronic bills to our clients. Secondly, we will positively impact the relationships with our clients. Not only can we get our invoices to them faster, but as a result of eBillingHub's pre-submission validation feature, they are compliant with our client's electronic billing guidelines."

The eBillingHub helps law firms speed up the collections process, reduce the complexity of electronic invoice submissions, eliminate billing backlogs and common submission errors, and minimize or eliminate the need for additional staff to administer electronic billing. For law firms, using the eBillingHub results in improved cash flow, increased partner distributions, and enhanced client service.

"We are extremely excited about working with a firm like Ford & Harrison" stated Greg Coticchia, eBillingHub's CEO. "Forward thinking firms like them understand that they can take control of their growing electronic billing volume and related vendors their clients choose, and actually benefit from eBilling by addressing the business process. By adding the tools we provide, eBilling can actually become a competitive advantage"

Considered the defacto standard for law firm electronic billing, eBillingHub delivers its law firm ebilling solution as Software as a Service (SaaS) built on a service-oriented architecture (SOA), providing Web services standards for its integration with practice management systems such as Thomson Elite and ProLaw, ADERANT, RainMaker and others. With hundreds of customers and service providers using eBillingHub and its LEDES Toolkit™, the eBillingHub has established itself as the leader in simplifying the e-Billing process for law firms worldwide.

About Ford & Harrison LLP

Ford & Harrison is a national labor and employment law firm with nearly 200 lawyers in 18 offices: Atlanta, GA; Asheville, NC; Birmingham, AL; Chicago, IL; Dallas, TX; Denver, CO; Jacksonville, FL; Los Angeles, CA; Melbourne, FL; Miami, FL; Memphis, TN; Minneapolis, MN; New York, NY; Orlando, FL; Phoenix, AZ; Spartanburg, SC; Tampa, FL; and Washington, DC. Lawyers in the firm represent employers in labor, employment, immigration and employee benefits matters, including litigation, in issues involving national and international jurisdictions. More information can be found at www.fordharrison.com.

About eBillingHub®

eBillingHub delivers simplified electronic billing for law firms worldwide, making it possible for firms to eliminate costs and improve cash flow as they grow their electronic billing volume. The company's patent-pending technology, delivered as Software as a Service (SaaS), provides a comprehensive and collaborative approach for preparing, tracking, submitting and managing the electronic billing process. Unlike tools used by law firms to create LEDES invoice files, the eBillingHub simplifies the electronic billing process by integrating a law firm's time and billing software with multiple electronic billing vendors, which are often specified by a firm's clients.
