NEWS FOR IMMEDIATE RELEASE

ADERANT Announces Partnership to Resell eBillingHub

*Market-leading electronic billing service for law firms now available through
ADERANT for Expert and CMS.net customers*

PITTSBURGH – May 13, 2008 – eBillingHub®, the market leader in simplifying electronic billing for law firms, today announced it has entered into a reseller agreement with the company's long-time partner ADERANT, a global provider of business and financial management software for law firms. With this agreement, customers of the ADERANT Expert and CMS.net systems will be able to purchase the eBillingHub directly from ADERANT. Additionally, beyond ADERANT offering the eBillingHub directly to its customers, this agreement also allows for further integration of the two companies' respective product offerings.

“This is a tremendous opportunity for eBillingHub to partner with ADERANT, one of the top professional services software vendors worldwide,” said Greg Coticchia, chief executive officer

of eBillingHub. “This agreement further strengthens our marketplace position as the leading developer of law firm electronic billing solutions”

““We are excited about this opportunity with eBillingHub," said Michael J. Simmons, CEO of ADERANT. "This initiative brings a complete electronic billing solution to the legal market quickly and efficiently. Both ADERANT and eBillingHub are committed to delivering innovative solutions that address the largest problems law firm financial operations face today.”

The eBillingHub helps law firms speed up the collections process, reduce the complexity of electronic invoice submissions, eliminate billing backlogs and common submission errors, and minimize or eliminate the need for additional staff to administer electronic billing. For law firms, using the eBillingHub results in improved cash flow, increased partner distributions, and enhanced client service.

Initially released in 2004, eBillingHub uses a service-oriented architecture (SOA) and Web services standards for its integration with practice management systems such as ADERANT. With hundreds of customers and service providers using eBillingHub and its LEDES Toolkit™, the eBillingHub is often considered a de facto standard for electronic billing for law firms of all sizes.

About eBillingHub®

eBillingHub is the leading provider of Software as a Service (SaaS) solutions for law firms, making it possible for firms to simplify the electronic billing process. The company's patent-pending technology provides a comprehensive and collaborative approach for preparing, tracking, submitting and managing the electronic billing process.

Unlike tools used by law firms to create LEDES invoice files, the eBillingHub simplifies the electronic billing process by integrating a law firm's time and billing software with multiple electronic billing vendors which are often specified by a firm's clients.
