Greg Coticchia, CEO, eBillingHub

Greg has over twenty-five years of experience in technology products and services and is considered to be one of the best marketing executives in the software business. He has lead or been a major contributor in two of the largest and most successful software companies in the world, LEGENT (now CA) and AXENT (now Symantec). Greg was named as a finalist three times for the Ernst and Young Entrepreneur of the Year Award and for the Pittsburgh Tech 50 CEO of the Year. He was also named a 2006 Distinguished Graduate of the University of Pittsburgh, Katz School of Business. He graduated from the University of Pittsburgh in Industrial Engineering where he also received his MBA, and currently teaches both business-to-business

marketing and entrepreneurial leadership at the University of Pittsburgh, Katz School of Business and Duquesne University.

The eBillingHub

eBillingHub is Software as a Service (SaaS) ebilling solution for law firms. More than a simple tracking tool, the eBillingHub automates the business process of law firm eBilling, improving cash flow, reducing costs and improving client service. It connects directly to the leading professional services financial and practice management platforms including, ADERANT Expert, RainMaker Software's Platinum and Visual Pyramid, Thomson Reuters Elite and ProLaw, as well as the majority of the leading corporate ebilling vendors. As a result it can automate the key aspects of the eBilling process, but in a much better and simpler way than the manual mode most law firms do their work today. By providing a single web interface for access to all the electronic bills, submission can be completed, easily and simply. eBillingHub is unique in its checking for submission errors eliminated through the eBillingHub's 'trial posting' function that highlights errors *before* they are actually submitted, saving you time and money.

With eBilling volumes growing at an estimated compound annual growth rate of (CAGR) of 46.8% and the complexity of the workload associated, and resulting business impact, law firms are looking for ways to simplify eBilling complexity and gain control of eBilling volumes.

About eBillingHub®

eBillingHub delivers simplified electronic billing for law firms worldwide, making it possible for firms to eliminate costs and improve cash flow as they grow their electronic billing volume. The company's patent-pending technology, delivered as Software as a Service (SaaS), provides a comprehensive and collaborative approach for preparing, tracking, submitting and managing the electronic billing process. Unlike tools used by law firms to create LEDES invoice files, the eBillingHub simplifies the electronic billing process by integrating a law firm's time and billing software with multiple electronic billing vendors, which are often specified by a firm's clients.
