FOR IMMEDIATE RELEASE

RainMaker Software, Inc. Announces Client Adoption of e-BillMaker

Archer & Greiner, P.C. and Bush Ross, P.A. Select e-BillMaker to Speed Electronic Billing & Improve Collections

BLUE BELL, Pa. (July 3, 2008) RainMaker Software, Inc., a leading full service provider of Financial, Practice Management and Business Intelligence software for mid-large sized law firms today announced that two client firms have purchased the company's e-BillMaker service. Archer & Greiner, P.C., a NJ-based law firm with more than 150 lawyers, and Bush Ross, P.A. a commercial litigation and transaction firm based in Tampa, plan to streamline their electronic billing processes using this monthly service.

e-BillMaker, powered by eBillingHub, is a web-based service that directly integrates with the RainMaker time and billing system. From a single screen, users can validate and submit electronic bills to hundreds of clients with one-click, using firm-specified requirements and ensuring compatibility with leading e-billing vendors. The e-BillMaker portal provides complete visibility of all electronic bills and submissions and allows for "trial posting" to highlight possible errors before invoices are submitted. The end result for firms is a more efficient and accurate billing process, reduced risk of billing backlogs, enhanced level of client service and improved cash flow.

"Processing electronic invoices had been a time consuming process that impacted our paper billing as well," said John. Tait, director of finance, Archer & Greiner, P.C. "We're looking forward to the automation that e-BillMaker provides so that we can shift our resources to expedite the paper billing process."

"Our goal is to get our invoices out the door on time and according to client-preferred formats. e-BillMaker will greatly reduce this monthly resource drain and should have a positive impact on receivables as well," said Mike Adams, director of information technology, Bush Ross, P.A.

"A 12-month benchmark study shows that firms using a single, centralized e-billing solution directly tied to their time and billing software experienced processing savings of \$90,000 per year," said RainMaker president, Jim Hammond. "That's a powerful figure, especially given the economic times. Our goal, through products like e-BillMaker, is to help our clients reduce costs and keep their businesses profitable."

For more information about e-BillMaker or other RainMaker products, interested parties can contact the sales department at 1.800.341.4012 x3413 or via email at legalinfo@rainmakerlegal.com.

About RainMaker Software, Inc.
