FOR IMMEDIATE RELEASE

ELITE 3E® Enhances Electronic Billing Capabilities with eBillingHub®

LOS ANGELES, Aug. 13, 2009 – Elite®, part of Thomson Reuters, has expanded the e-billing capabilities of its ELITE 3E® practice management solution for law firms through integration of 3E with eBillingHub®. Since November 2007, eBillingHub has been available within Elite Enterprise.

The automated bill submission capabilities of eBillingHub, with seamless connectivity capabilities to Enterprise and 3E, increases the commitment of both companies in delivering streamlined connectivity for aggregated and automated bill submission and a single point of control.

“We’re committed to reducing the complexity and administrative costs of electronic billing for our law firm clients. Our work with the eBillingHub is an important component in achieving that goal,” said Kim Massana, senior vice president and general manager, Elite. “eBillingHub has proven very popular with existing Enterprise and ProLaw clients. It was only natural to extend that to 3E now that we have a large number of firms live and operational on the system.”

“eBillingHub’s integration with 3E further underscores our commitment to be the leader in simplifying e-billing for law firms,” said Ryan Ladisic, vice president, Sales, eBillingHub. “We were the first vendor to deliver this functionality to Elite clients and by supporting 3E we can now provide law firms with a powerful, yet easy to use platform that encompasses practice and financial management with a state of the art e-billing process.”

About eBillingHub®

eBillingHub delivers simplified electronic billing for law firms worldwide, making it possible for firms to eliminate costs and improve cash flow as they grow their electronic billing volume. The company's patent-pending technology, delivered as Software as a Service (SaaS), provides a comprehensive and collaborative approach for preparing, tracking, submitting and managing the electronic billing process. Unlike tools used by law firms to create LEDES invoice files, the eBillingHub simplifies the electronic billing process by integrating a law firm's time and billing software with multiple electronic billing vendors, which are often specified by a firm's clients. For more information, please visit <http://www.ebillinghub.com>.
