eBillingHub's® Ryan Ladisic to Present the Benefits of SaaS Legal Solutions at the ADERANT Momentum 2010 Meeting in London

Market Leader eBillingHub to Share Best Practices on Implementing SaaS Products to Maximize ROI

PITTSBURGH, PA. July 6, 2010 – The eBillingHub, the market leading solution that reduces the cost and complexity associated with legal eBilling, announced today that their VP of Global Sales and Marketing, Ryan Ladisic, will be a featured speaker at the ADERANT Momentum 2010 User Conference in London. The ADERANT conference will be held at the Radisson Edwardian Bloomsbury Street Hotel, July 6-7, 2010. eBillingHub is a Sponsor of the event, and will also be exhibiting at the Conference.

eBillingHub is the market leading solution that provides an automated cost-effective way for all law firms regardless of size, to make their eBilling system more efficient, speed cash flow, and provide trouble-free service to their clients. The eBillingHub simplifies the electronic billing process by integrating with law firm's time and billing systems and client's electronic billing software, reducing overall complexity and resulting in a predictable, dependable, and efficient process. Being a Software as a Service (SaaS) based application greatly reduces the law firm's implementation time, eliminates additional hardware and software capital expenditures while making all eBillingHub updates immediately available to all customers.

"Law firms must find a way to get their electronics bills to their clients in a timely and predictable manner while the volume of their electronic bills continues to dramatically rise" states Ryan Ladisic, Global VP of Sales and Marketing at eBillingHub. Ladisic continues "To try and address these business issues with traditional eBilling solutions only creates additional complexity along with huge capital outlays, long implementation times and heavy internal resource requirements. "In this presentation you will learn innovative ways to leverage the eBillingHub, a SaaS based solution to dramatically cuts implementation times, capital resources and delivers quantifiable business savings."

Ryan Ladisic has held various sales, marketing and business development positions during his 16 year professional career. Since 2002 he has been involved in "spend management" software, first with his own start-up at the age of 28 and then specifically in "legal spend management" with companies like DataCert, Integration Appliance and his recent appointment as VP of Global Sales and Marketing for eBillingHub. Ryan has been involved in numerous industry panels and has written a number of white papers and articles relating to the issues and costs associated with legal eBilling. His most recent writing was published in the February 2010 Legal Tech Newsletter titled "Challenges and Solutions for Electronic Billing."

About eBillingHub®

eBillingHub delivers simplified electronic billing for law firms worldwide, making it possible for firms to eliminate costs and improve cash flow as they grow their electronic billing volume. The company's patent-pending technology, delivered as Software as a Service (SaaS), provides a comprehensive and collaborative approach for preparing, tracking, submitting and managing the electronic billing process. Unlike tools used by law firms to create LEDES invoice files, the eBillingHub simplifies the electronic billing process by integrating a law firm's time and billing software with multiple electronic billing vendors, which are often specified by a firm's clients. For more information, please visit <http://www.ebillinghub.com>.
